

# KISHOR KUMAR S

Android Developer

☎ 7708669266 ✉ kishorekumar20002646@gmail.com 📁 Portfolio 🔗 LinkedIn 🐙 GitHub 📍 Krishnagiri

## PROFESSIONAL SUMMARY

**App Developer** with hands-on experience in building **scalable mobile applications** using **Flutter, Java** and modern Android architecture components. Strong understanding of **unidirectional data flow**, state management, and lifecycle-aware components. Experienced in backend integration, real-time systems, and modular application design and actively Exploring and Learning AI Concepts.

## TECHNICAL SKILLS

- **Languages:** Java,Dart, C, SQL
- **Frame Work:** Flutter
- **Architecture:** MVVM, Clean Architecture, Unidirectional Data Flow
- **Backend & Database:** Firebase Realtime DB, MongoDB, SQL, REST APIs, Firebase, Supabase
- **Concepts:** DSA, Networks, Modularization, Lifecycle Awareness, State Management,
- **Tools:** Git, GCP

## WORK EXPERIENCES

### Flutter Developer Intern | Internship

Sep 2025 - Jan 2026

*UptoSkills*

*Remote • Delhi*

- Developed scalable mobile features with backend integration using Supabase, **improving data handling efficiency by 35%**.
- Optimized app performance by resolving bottlenecks, **reducing latency and improving UI responsiveness**.
- Led sprint execution as Team Lead, ensuring timely delivery of production features.
- Designed database schemas for real-time systems and efficient state synchronization.

*Technologies / Skills Used : Supabase, flutter, Onesignal, SQL, APIs*

## EDUCATIONS

### Bethel Matriculation School | Hosur

Mar 2021

*SSC - 10th Standard*

*Percentage : 100 %(covid batch)*

### Vailankanni Matric Hr Sec School | Hosur

Mar 2023

*HSC - 12th Standard*

*Percentage : 83 %*

### Sri Sairam College of Engineering | Bangalore

2023 - 2027

*B.E – Computer Science Engineering*

*CGPA : 8.150*

Currently pursuing an **Honors Degree** alongside my BE.

## PROJECTS

### GreenWave – Smart Ambulance Traffic Control System | 🐙 Github 🌐 Website

Mar 2026 - Present

*Lead Developer*

- Built a **real-time ambulance tracking** and **traffic signal automation system** to enable green corridors in high-traffic zones
- Designed system integrating **Firebase + live GPS tracking + alert system**, reducing emergency response delays
- Implemented automated signal control logic + manual override alerts for non-automated junctions
- Developed scalable architecture capable of supporting multi-city deployment scenarios

*Technologies / Tools : Firebase, GPS, Flutter, Notification, MongoDB*

### Truck Singh – Logistics Management System | 🐙 Github 🌐 Website

Sep 2025 - Jan 2026

*Flutter Developer*

- Developed a **full-stack logistics platform** serving **100+ users** (drivers, agents, owners), reducing manual coordination by ~40% through workflow automation
- Built **real-time chat system**, Integrated **Google Maps live tracking** for enhanced route optimization
- Designed automated alerts system (OneSignal) and implemented document verification + invoice generation

*Technologies / Tools : Google Maps, Flutter, Supabase, Onesignal, SQL*

### PCify – AI-Based PC Builder Marketplace | 🐙 Github 🌐 Website

Mar 2026 - Present

*Lead developer , Backend Manager*

- Building a **two-sided marketplace** connecting users with PC builders, with an **AI-powered recommendation engine** for personalized configurations
- Implementing **real-time chat**, booking, and payment system for seamless end-to-end transactions
- Designing a trust layer (ratings, reviews, portfolio showcase) and a matching algorithm to optimize user–expert pairing efficiency

*Technologies / Tools : Flutter, REST APIs, AI Recommendation*

## CERTIFICATIONS

- **Networking Basics — Cisco Networking Academy (22 Hours)**  
Covered computer networking, TCP/IP, IPv4/IPv6, DHCP, ARP, routing, TCP/UDP, network segmentation, wireless networking.
- **Google AI Agents Intensive — Kaggle × Google**  
Completed a 5-day intensive covering AI agents, agent architectures, tool calling, multi-agent systems, and autonomous workflows.
- **AI Skills Passport — EY × Microsoft**  
Completed AI-focused training covering artificial intelligence concepts, ethical AI, AI design, and enterprise applications.
- **Green Skills & AI — Edunet Foundation**  
Completed 100 hrs training on green technology, sustainability, green computing, and responsible AI development.
- **Google AI Essentials — Coursera × Google**  
Completed foundational training in generative AI, prompt engineering, AI tools, and responsible AI practices.

## AWARDS & ACHIEVEMENTS

- 1st Prize – **Sairam SDG Ideathon 3.0** — Built a social-impact solution aligned with UN SDG Goal 1.
- Winner – **BFB 24-Hour Hackathon** — Developed GreenWave, a real-time emergency traffic management system.
- Team Lead – **Retailer Sakthi Hackathon** — **Led 12 members** to deliver a B2B medicine marketplace MVP in 15 days.
- LeetCode DSA — Solved **270+ problems** covering data structures, algorithms, problem-solving, and competitive programming. [https://leetcode.com/u/kishor\\_2646/](https://leetcode.com/u/kishor_2646/)
